

# YAMINI SAPPA

Frontend Web Developer | LMS & EdTech Specialist

+91-9560940079 1710yamini@gmail.com India

## Summary

I am a detail-oriented Frontend Developer and UI/UX Designer with 4 years of experience, primarily focusing on building responsive Learning Management Systems and EdTech platforms. My expertise lies in transforming complex requirements into high-performing interfaces using React.js, JavaScript, and modern CSS frameworks. I have a proven track record in delivering scalable educational tools, optimizing workflows, and implementing full-stack web solutions

## Experience

### VivTej Educational Services

#### Product Developer

03/2024 - Present

- **Role:** Lead End-to-End Designer and Frontend Developer for mobile-first EdTech solutions.
- **TEJ (Current Affairs Reels App):** End-to-End Design (UI/UX): Conceptualized and designed the complete mobile interface in Figma, creating a high-fidelity 'reels-style' feed optimized for micro-learning and rapid content consumption.
- **Frontend Development:** Built the core interface using React-based components, implementing advanced CSS and JavaScript animations to facilitate smooth vertical scrolling and interactive engagement triggers.
- **Topic Prep Mobile App:** Architected a government exam preparation platform. Managed the entire UI/UX lifecycle and frontend architecture to improve student retention and navigation. diverse learning portals
- **Managed the entire lifecycle** of a government exam preparation platform, from initial wireframing and prototyping in Figma to the final frontend deployment.
- **Conducted user flow analysis** to design intuitive navigation systems for massive content libraries, including multi-tier course structures and sub-topic hierarchies.
- **Implemented UI elements** such as streak trackers and gamified achievement badges that increased daily active users (DAU) and improved overall learner session duration.

### Teman Edtech Pvt Ltd

#### Senior Full Stack Web Developer

05/2023 - 02/2024

- **Role:** Lead Designer (End-to-End) and Core Developer for enterprise-level LMS web applications.
- **Skill Medha Web App:** Designed the platform's entire interface and served on the development team to build a placement automation and skill-building system. Integrated complex LMS workflows for student tracking and course delivery.
- **End-to-End Design (UI/UX):** Directed the complete visual design strategy in Figma, creating wireframes and high-fidelity prototypes for a dual-facing platform serving both students and recruitment partners.
- **Placement Automation System:** Designed and developed automated placement workflows, including a dynamic resume builder, job application tracking, and a centralized portal for recruiters to manage candidate pipelines.

### Teman Edtech Pvt Ltd

#### Junior Software Developer & Trainer

02/2022 - 04/2023

- **Role:** Frontend Developer and Technical Trainer for specialized learning platforms.
- **Assesspal Assessment Web App:** Designed the end-to-end UI/UX and developed frontend components for an automated assessment engine supporting diverse question formats (MCQs, code-based questions).
- **Built intuitive instructor dashboards** to manage test cohorts, set evaluation parameters, and visualize real-time student performance analytics.
- **Implemented responsive, high-performance test-taking interfaces** with integrated timers and auto-save functionalities.
- **Techie Panda LMS Web App:** Executed the end-to-end design and frontend development for an LMS specifically tailored for technical education and coding bootcamps.
- **Developed modular course navigation systems, progress trackers, and video-integrated learning interfaces** to facilitate structured technical training.
- **Created administrative dashboards** for instructors to upload curriculum content, manage student enrollments, and monitor platform engagement.
- **Technical Training:** Delivered hands-on sessions on frontend best practices (HTML5, CSS3, JS) to students, while ensuring all platform components maintained 100% cross-browser compatibility and accessibility.

## Skills

LMS • GitHub • React • JavaScript • CSS • HTML • ES6+ • Bootstrap • Material UI • Figma • Wireframing

## Key Achievements

-  **Enhanced Student Engagement**  
Increased student engagement by 30% through optimized LMS navigation and user interface design.
-  **Optimized Loading Times**  
Achieved 50% reduction in loading times by implementing advanced code optimization techniques.
-  **API Integration Success**  
Successfully integrated real-time APIs, leading to 20% increased responsiveness of platforms.
-  **Web Page UI Design**  
Designed UI for 40+ web pages, resulting in 25% higher user retention rate.

## Projects

### Topic Prep (Mobile App)

A mobile app designed for government exam preparation

- Designed and developed a comprehensive government exam preparation platform. Created the entire UI/UX flow and frontend architecture to optimize student learning and retention

### TEJ (Current Affairs Reels)

A mobile app for current affairs

- Engineered a fast-paced 'reels' style current affairs app. Designed high-fidelity animations and optimized performance for seamless video playback and rapid content loading

### Skill Medha (EdTech Web App)

An EdTech web application for placement automation

- End-to-end design and frontend development for a placement automation platform. Integrated complex dashboards and learning modules with basic backend API connectivity

### Techie Panda (LMS)

A full-scale LMS for educational institutions

- Architected a full-scale Learning Management System. Focused on course delivery interfaces, instructor dashboards, and responsive student portals

### AssessPal (Assessment Platform)

An assessment platform for educational settings

- Designed and built a dedicated assessment tool featuring complex quiz workflows, automated scoring UI, and real-time result analytics

### Corporate Website & Landing Pages

Redesign and development of corporate websites and landing pages

- Led the full redesign and development of various high-conversion landing pages and corporate sites, including Vivtej Software Solutions

### 40+ Small Webpages & Animations

A collection of interactive webpages featuring advanced animations

- Developed a diverse portfolio of 40+ interactive webpages focusing on advanced CSS/JS animations and micro-interactions to enhance user experience

## Education

School of Planning and Architecture  
Master's in Environmental Planning

New Delhi  
08/2018 - 07/2020

School of Planning and Architecture  
Bachelor's in Physical Planning

New Delhi  
08/2014 - 06/2018
